WHO ARE WE?

Zenvistas is led by industrial entrepreneurs who have built and run $1 billion-scale enterprises over three decades of execution excellence.

ZENORA

WELCOME TO ZENORA

Zenora is an Exclusive Ultra-Luxury Community for **60 Families** over **7 acres,** built with a conscious blend of the state of the art features and a **carefully curated living experience.**

Zenora features villas and a community layout that are fully Vastu compliant, designed for harmony and positive living.

THE TREE OF LIFE

The Tree of Life, a dedicated monument for the enclave symbolises energy, calm, and vigour, that is surrounded by four landscaped gardens (Sculpture Court, Flower Garden, Zen Garden, Swing Park) with seating and play areas, ensuring people over all generations can unwind and experience a sense of calm.

STEP INTO QUIET LUXURY

Here, space is deliberate, movement is unhurried,
and stillness comes from things being precisely
where they belong.

This is a place shaped to last in form,
in planning, and in presence.

FUNCTIONAL PATHWAYS

Start and end your day with unhurried walks along shaded pathways and thoughtfully placed seating nooks, where simple daily strolls are transformed into a restorative ritual for body and mind.

A 40-ft grand boulevard ensures effortless arrivals, while 30-ft tranquil internal roads and thoughtfully zoned planning create a quieter, safer, and more undisturbed living environment.

GRACE IN EVERY CORNER

Lush landscaped avenues, thoughtfully layered design elements, and tranquil green pockets come together to shape an enclave of enduring beauty and quiet grace in every corner.

Traffic buffering, inward-focused zoning, and low residential density keep daily life shielded from outside noise and rush.

DESIGNED UNDER NATURE, NOT OVER IT

Leafy walkways provide cooler, quieter, and comfortably shaded routes, and a seamless connection to nature through landscaped shrubbery ensures that every corner of each villa is connected to greenery.

Avenues are lined with tall tropical trees, framing streetscapes with distinction.

WORKING AMIDST NATURE

An open-air workstation set amidst greenery offers a refreshing, productivity-boosting space where work flows naturally in the calm of nature.

WATERSCAPES BRING BALANCE

At Zenora, a serene lily pond paired with a reflexology pathway, create a soothing, sensory retreat that nurtures relaxation and holistic well-being.

SPACES THAT SLOW LIFE DOWN

Spaces like Zenora's Zen Garden are shaped to slowdown, fostering stillness, comfort and balance.

A high green ratio, spacious internal lanes, and low-density planning foster an atmosphere that feels open, quiet, and unhurried.

BUILT TO OUTLAST

Zenora is defined by proportion, choice of materials, and architectural clarity, resulting in a composition that transcends fleeting trends and endures gracefully over time.

CRAFTED THROUGH TEXTURE AND TONE

Zenora's tropical luxury palette combines warm timber soffits, light-toned plaster and concrete textures, black metal accents, and premium glass glazing, creating a composition that is timeless, refined, and quietly opulent.

SEAMLESS BY DESIGN

Hidden operational systems ensure seamless functionality of utilities.

Generous setbacks, mindful window orientation, and layered boundary planning preserve personal space without feeling closed in. Intuitive layouts, seamless circulation, and restrained, purposeful planning come together to create homes that feel effortlessly refined. Tiered access control, planned surveillance coverage, and clear movement hierarchies create a secure yet unobtrusive living environment.

EFFORTLESS EVERYDAY LIVING

At Zenora, every plan is crafted to reduce friction. Spaces connect intuitively, and daily routines flow with ease. Comfort here is built into the layout through thoughtful zoning, daylight balance, and calm proportions.

Villas include a room that works as a study, guest space, or elder-care suite. There is also clear separation between living and work zones. Cross-ventilation and thoughtful window placement keep interiors bright, airy, and quietly composed.

EASEFUL ACCESS AND INCLUSIVE DESIGN

Every villa includes a private lift to ensure seamless access across all floors. Layouts are designed for multi-generational living, with easy circulation, quiet privacy, and everyday comfort built in.

Elder-friendly planning, thoughtful bedroom placement, and reduced dependence on stairs make the home future-ready and effortless.

ROOM TO UNWIND AND EXPAND

Expansive layouts provide room to breathe and savour every moment.

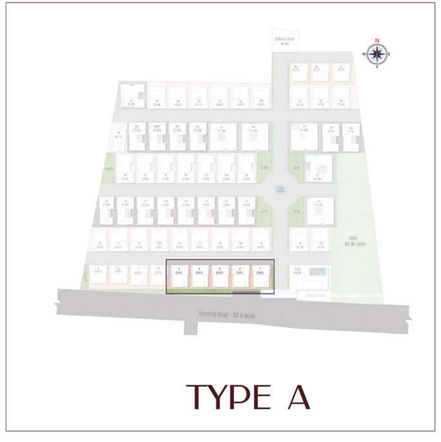

Unfold to see serenity and balance

IGBC CERTIFICATION

With **IGBC Gold certification,** ensuring detailed planning and inclusions, Zenora demonstrates its commitment to sustainability, ensuring energy-efficient design for sunlight and cross ventilation. The enclave adopts eco-conscious planning through water and energy efficiency, increased green cover, and the use of sustainable materials. These measures, along with thoughtful ventilation, lighting, and shading elements across the villas and the enclave, help minimise environmental impact while enhancing comfort, wellbeing, and long-term value for every resident who calls Zenora home. IGBC Certification also ensures eradication of heat islands in the project by incorporating natural cooling elements in villas and shared spaces.

OUTDOOR LIVING EXPERIENCES

CORE SAFETY AND ACCESS

- Entrance portal with security cabin and boom barricade
- Visitors' parking and bus bay
- Gated community with perimeter wall
- 24x7 security with CCTV monitoring
- Fire safety management
- Wide internal roads
- Wheelchair access

FAMILY ESSENTIALS AND PLAY

- Children play areas (4—12 Yrs) with rock climbing wall
- Shaded seating areas
- Elders relaxation and chatting zone
- Outdoor floor games area (Chess, Ludo, Hopscotch)
- Indoor arcade games room
- Multipurpose sports court (Box Cricket, Basketball, Tennis)

FITNESS AND WELLNESS

- Cycling track and walking paths
- Reflexology pathway
- Yoga and meditation deck
- Outdoor workstation
- Multipurpose lawn
- Swimming pool with deck
- Gym and fitness centre
- Salon and spa

SOCIAL AND COMMUNITY GATHERING

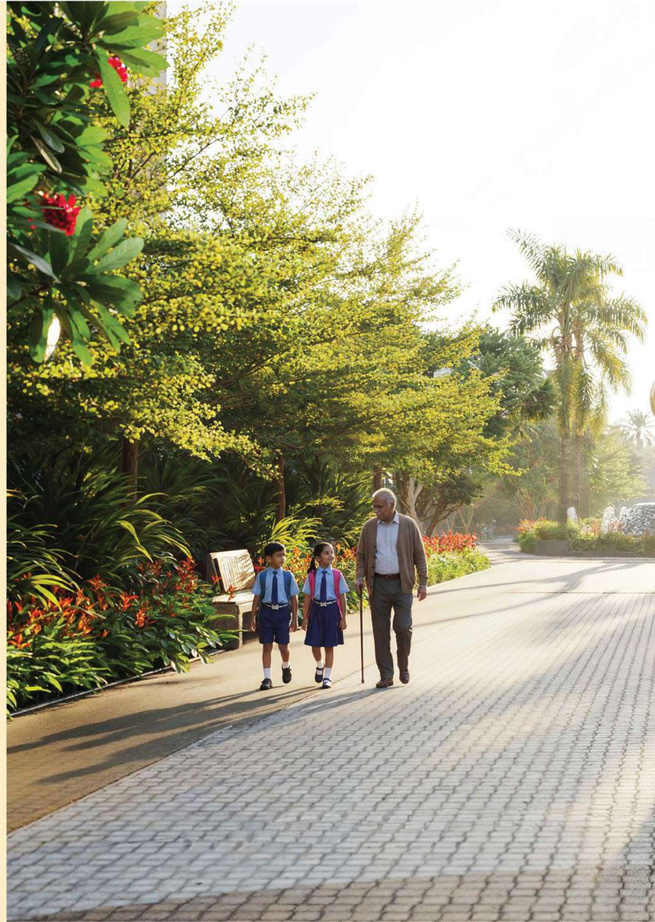

- Outdoor party deck
- Outdoor cafe
- Open air amphitheatre
- Clubhouse spanning 20,000 sq. ft. with reception lobby, banquet hall, cafe, business centre, meeting room, library, movie theatre and more

LANDSCAPING, IDENTITY AND SIGNATURE ELEMENTS

- Tree of Life, a monument with landscaping and fountains
- Four themed gardens surrounding the Tree of Life (Sculpture Court, Flower Garden, Zen Garden, Swing Park)
- Lily pond and other decorative water features
- Sound bowl
- Outdoor musical garden

INFRASTRUCTURE AND SUSTAINABILITY

- Power backup for common areas
- Hydro pneumatic water supply system with digital water meters
- Energy-efficient heat pump system for hot water requirements
- Solar street lighting
- State of the art water management systems, including rainwater harvesting and wastewater treatment
- Underground power lines to ensure safety and reliability
  Waste management system
- Maintenance office
- Sustainable construction

SPECIFICATIONS

STRUCTURE

- Reinforced cement concrete (RCC) framed structure using concrete with reinforcement steel from reputed manufacturers, designed by a qualified structural consultant in accordance with relevant standards
- Foundation system executed based on soil conditions and approved structural design
- Red brick masonry walls with plaster finishing
- Anti-termite treatment and plinth protection as per standard construction practices
- Terrace slab with integrated waterproofing and heat-reduction treatment

FLOOR FINISH

- Living and dining areas: Large-format Italian marble tiles of premium brand
- Kitchen, utility and guest bedroom: Large-format vitrified tiles of premium brand
- Master bedroom: Wooden flooring of premium brand
- All other bedrooms: Large-format vitrified tiles of premium brand
- Deck and courtyard: Granite flooring as per design selection of premium brand
- Porch and driveway: External-grade heavy-duty parking tiles of premium brand
- Staircases: Large-format granite tiles of premium brand
- Washrooms: Anti-skid flooring with coordinated designer wall tiles of premium brand
- Outdoor areas: Anti-skid external-grade tiles of premium brand

  Open terrace: Cool roof tiles of premium brand

RAILINGS, GRILLS AND SKYLIGHT

- Staircase and balcony railings comprising powder-coated aluminium or stainless steel systems with toughened glass panels of premium brand
- Safety grills in powder-coated mild steel where applicable
- Skylight with toughened glass and powder-coated mild steel structural framing

WALL AND CEILING FINISHES

- Internal Walls: Smooth finish with putty application and primer coats (Asian Paints or equivalent)
- Exterior Walls: Putty and primer coats finished with premium branded weatherproof exterior paint (Asian Paints or equivalent)
- Façade: Textured or cladding finish with emulsion coating of premium brand as per architectural design
- Washrooms: Designer wall tiles

  Powder Room and Maid Washroom: Designer wall tiles with painted finish above tiled areas
- Ceilings: Two coats of putty, primer coat, and two coats of premium paint finish (Asian Paints or equivalent)

KITCHEN AND UTILITY

- Kitchen designed for modular layout, with space left open
- Designer wall tiling above countertop height
- Electrical provisions for hob, chimney, oven, dishwasher, refrigerator, RO water purifier and other appliances
- Plumbing provisions including water inlet and drainage for sink, dishwasher, washing machine and RO water purifier
- Utility area with washing machine point, water inlet and greywater drainage provision

PLUMBING, DRAINAGE AND SEWAGE MANAGEMENT

- Concealed plumbing network with tested piping systems (Kohler or equivalent quality standards)
- Rainwater drainage network integrated with project-level recharge systems
- Wastewater and sewage treatment through a common Sewage Treatment Plant (STP)
- Provision for treated water reuse for landscaping and non-potable applications

LIFT PROVISION

- Single phase home lift with three stops
- Lift cladding finished with designer granite or architect-approved materials

DOORS, WINDOWS AND GLAZING

- Main entrance door: Teakwood shutter and frame with polishing, premium hardware, threshold, and provision for digital lock/high-security locking system
- Bedroom doors: Engineered wood shutter and frame with premium hardware and polish finish
- Bathroom, balcony, utility and service doors: Engineered wood shutters with frames and laminate finish
- Flush doors of premium brand, wherever applicable
- Metal doors of premium brand wherever applicable
- Windows: Powder-coated aluminium sliding windows with clear glass and provision for mosquito mesh of premium brand
- Ventilators: UPVC ventilators with adjustable louvres

WASHROOMS AND WATER SYSTEMS

- Premium sanitary ware including wash basins, wall-mounted water closets with concealed cisterns, and chrome-plated fittings from reputed brands (Toto, Kohler, Grohe or equivalent)
- Concealed flush systems (Geberit or equivalent)
- Granite or equivalent counters for wash basins as per architectural selection
- Single-lever diverter systems with rain showers in all bathrooms
- Provision for exhaust fans and adequate ventilation
- Proper slope-to-drain detailing for efficient water discharge
- Hydro-pneumatic water supply system ensuring consistent pressure across all fixtures
- Hot and cold concealed plumbing lines using quality piping with pressure-testing protocols with provision for heat pumps for individual villas

ELECTRICALS AND LIGHTING

- Concealed copper wiring with modular switches from premium brands (Legrand, Norisys or equivalent)
- Adequate power outlets for air conditioners, geysers, kitchen appliances, lifts and future upgrades
- Electrical provisions for kitchen and utility appliances
- Outdoor lighting provisions for porch, façade, garden and landscape areas
- Backup power provision aligned with community infrastructure plan

SMART HOME INFRASTRUCTURE AND SECURITY

- Conduits and wiring provisions for home automation upgrades
- Video door phone (Panasonic or equivalent)
- Digital door lock (Yale, Godrej or equivalent)
- Provision points for CCTV and network-ready planning for mesh Wi-Fi coverage

COMMON UTILITIES AND SUSTAINABILITY FEATURES

- Provision for cooking gas station for individual villas
- Treated water provision at kitchen level with optional readiness for whole-house filtration
- EV charging provision at parking
- STP-treated water utilisation for landscaping

SPECIFICATION NOTE*

Specifications provided are indicative of the intended premium standard. Final detailed specifications, including brands and models, will be given and may be subject to statutory approvals, engineering requirements, and design refinements.
